

climate change

# What is Climate Change?

weather

I can measure our  
weather.

I can see our usual  
weather is  
changing.

climate change

The weather is  
changing all over  
the world.

This is called  
climate change.

Air pollution causes  
climate change.

Pollution makes the  
earth warmer, like a  
greenhouse.

flood

wildfire

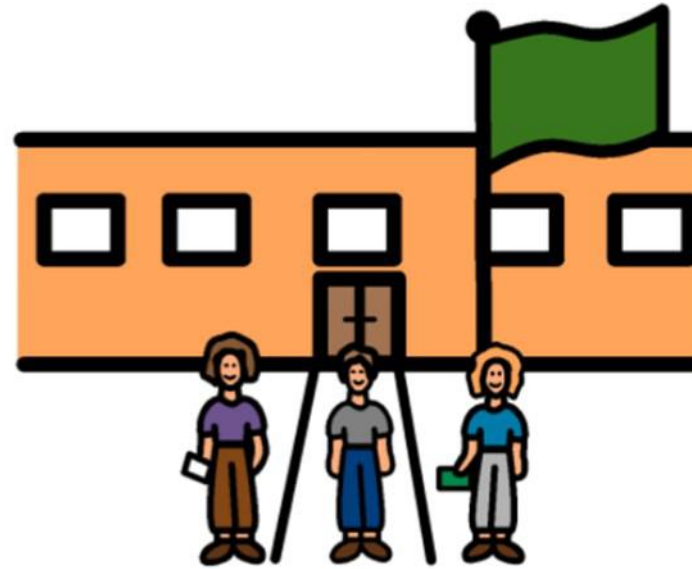

Climate change can hurt places I care about.

But I can help.

home

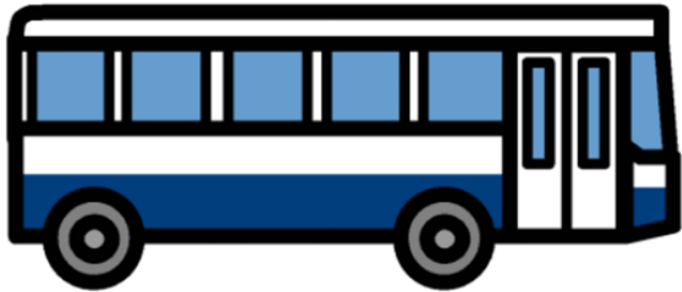

school

There are things I can do at home  
and at school.

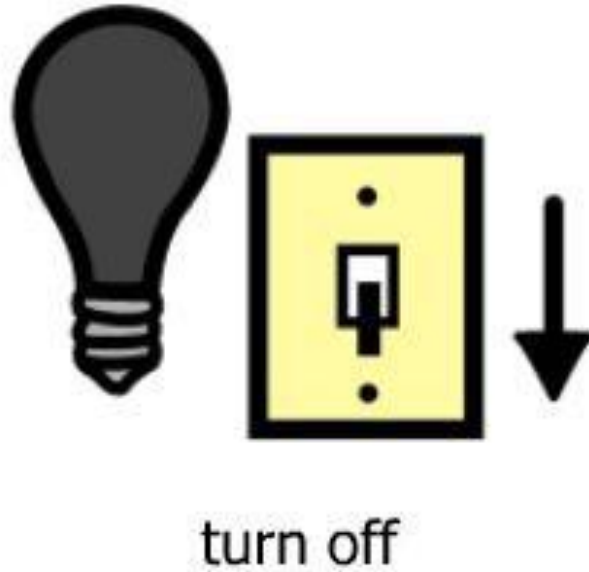

Some vehicles make pollution.

I can take the bus or bike instead of the car sometimes.

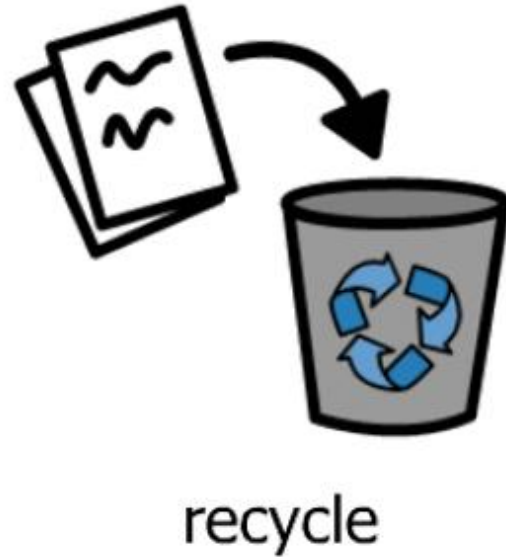

Wasting electricity  
can make  
pollution.

I can turn things  
off when I don't  
need them.

Some waste  
makes pollution.

I can make sure  
rubbish goes in  
the right bin.

help environment

I can help the  
environment at  
home and at  
school.
