

# How to Hang Your Eco-Schools Green Flag

Now that you have achieved a Green Flag Award for your school, here is how you can attach it to your flagpole to fly it proudly outside your school.

How you attach the top corner of your flag depends on what kind of flagpole you have. Some flagpoles use snap hooks, while others must be tied on. Your Green Flag has a loop in the top right corner to accommodate all types of flagpoles.

You'll notice your Green Flag has a rope at the bottom left corner.

## Sheet Bend Step By Step

Attach the rope on your Green Flag to the rope on your flagpole using a Sheet Bend Knot. Remember to take your flag down in windy weather to prevent damage.
