

**WINNERS 2018 Design a One Planet Picnic Pocket Garden Competition**

<b>Entry title and description</b>	<b>School Name</b>	<b>Local Authority</b>
Water Journey. Plants and people both depend on clean water to live. This garden looks at different water journeys and how much time and energy is involved in getting this precious resource.	Mill o' Forest Primary	Aberdeenshire
A lobster pot makes a perfect soft fruit cage! Inspired by their coastal location and making use of a disused boat and other items from the local fishing industry this is a picnic at sea.	Macduff Primary School	Aberdeenshire
Join the fun in this sustainable helter skelter that integrates irrigation, homes for wildlife and waste recycling as well as local, seasonal food. A model sustainable community.	Kemnay Academy	Aberdeenshire
The Isle of Seil in miniature with it's features including the famous Clachan 'Bridge over the Atlantic' and vegetables as food forests.	Easdale Primary	Argyll & Bute
Not your normal vegetable plot, edibles and plants for wildlife intermingle in lush profusion. Your vegetable plot can look beautiful as well as bountiful; a recipe for happy, healthy living.	First Steps Nursery	Dumfries & Galloway
A wishing well is made into a home for wildlife on land. It represents Noblehill Primary pupils' 'Wishes for Fishes' - cleaner seas, less plastic and healthy oceans. What do you wish for?	Noblehill Primary School	Dumfries & Galloway
'Think Global, Act Local' as a pathway to a sustainable world from 2018 to 2030. It reminds us that our daily choices and actions have impacts beyond ourselves and can work to reduce climate change.	Grove Academy	Dundee City
Glenwood's Foodbank is full of food they have grown. The children say, "If you don't have any food you can come and take some food from this garden". Little ones showing us how to share and build a world with no poverty.	Glenwood Family Centre	East Renfrewshire
Inspired by plants that the children see growing wild in their outdoor spaces, this celebration of life on land is populated by minibeasts, and has food for people and wildlife including, nettles and wild strawberries.	Cowgate Under 5s Centre	Edinburgh City
A Home for Everyone. This home built from driftwood has space for birds, bats and bugs. Planted with plants attractive to wildlife and edible for people, it provides a welcome for all.	Summerside Kindergarten	Edinburgh City
Soak up the scents and sounds from this sensory garden promoting peace and justice. Inspired by Zen gardens, it's carefully arranged features are tied together by rippling patterns.	Hillwood Primary School	Edinburgh City
Join Larbert Day Nursery for a picnic in the deep, dark wood and see what woodland creatures you can spot, including a famous fictional character. Stories that connect us to the world are part of quality education.	Larbert Day Nursery	Falkirk
Linking land, sea and food with the shores of Bo'ness, this pocket garden sends a message to encourage us all to keep our oceans clean.	Kinneil Primary School	Falkirk
Where in the world? Edible plants from around the world are growing in a globe according to their country of origin. The globe garden sits within our solar system, powered by the light of the sun.	Lauriston Nursery	Fife
Glasgow, the dear green place, gets even greener. City landmarks are re-created to bring them alive with wildlife, food and flowers. A vision for sustainable cities.	Knightswood Secondary	Glasgow City
Wrecked! Here's the story of the wreck of a Clyde Puffer that foundered in 1919 during a storm in Staffin Bay. It's a reminder of coastal industry and our ties to the sea for food and employment.	Bun Sgoil Stafainn	Highland
Earth, Wind and Fire join Water as sources of clean affordable energy as a windmill, a waterwheel, a solar panel and willow biomass. There are also food plants as energy for life.	Corsehill Primary	North Ayrshire
Miniature varieties of vegetables are growing in this Fairy garden. It is also haven for butterflies, using seeds or cuttings from plants in the school's butterfly rearing project.	Logierait Primary School	Perth & Kinross
Mrs. Tiggy Winkle's garden is a window onto life on land from another viewpoint. There's a wormery, a hedgehog house and a snail sanctuary, all with easy access for a hedgehog.	Kinnoull Primary	Perth & Kinross
Buglife Goals! A garden of 17 global goals for happy minibeasts works beautifully to remind us of the aims of the global goals for people. Which is your favourite?	Cowie Primary School	Stirling
A Zero Hunger scarecrow stands guard over these food crops. Seasonal soft fruits, climbing vegetables and Scottish grains grow alongside plants for pollinators. Hanging crystals create rainbows like the one on Kilpatrick Schools' badge.	Kilpatrick School	West Dunbartonshire
Food and drink are traded globally including our daily cuppa. Brew up some new ideas about what we could produce and consume in the future with this garden all about tea. Nettle tea anyone?	Pinewood School	West Lothian
