

Barshaw Park Ark

Granny, granny, help us tae build an ark,
We'll mak it doon in Barshaw Park,
Near whar is plantit the Dalai Lama's peace pole.
Tae save wur planet, we've made it wur goal.
Granny, granny, light pollution is spoilin the dark,
Nae mair can we see bonnie stars fae the park.
Single use plastic, it his tae go,
It's killin the whales, aye, it is so!
Granny, granny, aye we are weans,
Aye, ye kin help us tae lead this change.
Less cars 'n planes, we'll ride oan the trains,
Play doon at the water an mak steppin stanes.
Granny, granny, we'll help intae wur ark,
Aw the wee insects, birdies an plants.
Tae keep them a safe, wul ye len us yer sark?
Tae gently clathe the wee beasties an keep them richt couthie,
We'll mak shair tae the plants dinae suffer frae drouthie.
Granny, granny wi wur ark we wul show
That aw roon the world weans thegither kin grow
A healthier planet fir a the craturs oan it.
Granny, granny, we'll stert wi wur ark
Richt noo, doon in Barshaw Park.
