

### **Lanark in Bloom poem**

Some people may ask what a Bloom group does. Here are some thoughts from a volunteer in our group:

A small green space  
Growing wild and free  
Peaceful and soothing  
So good for the soul  
A chance for some friends  
A haven to grow  
Full of veg and bright flowers  
They begin to sow  
Taking care to share  
This land where they grow  
With the wondrous creatures  
That live above and below  
Through sharing and caring  
A small community grows  
With patience and love  
They reap what they sow  
The brightest of flowers  
To add colour to the streets  
Organic vegetables  
Potatoes carrots and leeks.  
Reaching out to those  
Most in need  
Sharing and caring  
No need for greed  
Their time they give freely  
No praise do they crave  
Encouraging changes  
Our planet to save  
Pollution and litter  
Put our survival  
At great risk  
Changing behaviours Is the first step to fix  
The damage inflicted  
Over the years  
Will cause our children  
Nightmares and fears  
So make the effort  
Recycle reuse  
Our future depends  
On how you choose.  
So continue to support us  
And all that we do  
And save our planet  
For us and for you.
