

Upstream Battle

Litter survey

Survey details

Group name

Organisers name

Name of river / watercourse

Type of watercourse stream / burn, canal, river

Nearest village / town / landmark

Latitude (e.g 56.1267512) Longitude (e.g -3.9633940)

Local authority area

Survey date Survey time

Weather conditions

Are there any other factors influencing the survey (e.g. a recent clean up, a storm event or an overflowing bin)? Please provide details.

Length of area surveyed (m)

Width of area surveyed (m)

Part 1 - Floating litter count

Number of items floating past observation point

Duration of observation (mins)

Part 2 - Riverbank grading

- Visual assessment of litter on the riverbank
- A - None visible
 - B - Minor accumulation
 - C - Moderate accumulation
 - D - Significant accumulation
 - E - Major accumulation

Part 3 - Litter count

1. Plastic / polystyrene	Tally	Total
4 or 6 pack rings		
Bags (Shopping)		
Bags (Other) eg bin bags		
Bottles / containers
