

# One Planet Picnic Planner

You can use this planner in either of two ways to help reduce food waste.

1. Discuss the options for food or drink that you might want e.g. different fillings for sandwiches. Then put the options into the top row of the table so your group can choose between them.
2. Circulate the planner to your group and ask people to say what they plan to bring. It can help to make sure there is a mix of delicious things to eat.

Food for our One Planet Picnic I would like *or* I am bringing.
