

## **Carmunnock Community Gardeners – October 2023**

On a lovely Autumnal morning last week, Carmunnock Community Gardeners were joined by the village nursery and Carmunnock Primary 1 children for our 4<sup>th</sup> annual bulb planting session.

The children carefully placed 3 bulbs in each preprepared hole (correct way up), then covered the bulbs with fresh compost and gave each hole a wee stomp!

Everyone had great fun and are now looking forward to seeing the results of their work in the Spring. Thanks go to our local postie who kindly donated one of the bags of bulbs.

Next week, the Community Gardeners are planting 1,000 crocus bulbs at the entrance to the village. The results are sure to be stunning.
