From woodland gardens to parks and allotments, after school clubs to residents associations and adopted stations, this year over 140 groups from across Scotland got together to improve their neighbourhoods and took part in the It’s Your Neighbourhood campaign. Keep Scotland Beautiful is proud to reward the efforts that they make to improve their local environments.

It’s Your Neighbourhood celebrates the achievements of communities which have come together to clean up and green up their local area. It is free to take part and is non-competitive. Trained mentors visit each project once a year to offer support, encouragement and ideas for the future. The three core pillars of It’s Your Neighbourhood are:

- Community Participation
- Environmental Responsibility
- Gardening Achievement

There are five levels of achievement:

- Establishing
- Thriving
- Improving
- Outstanding
- Developing

The It’s Your Neighbourhood campaign is run by the charity Keep Scotland Beautiful, which is a member of the Royal Horticultural Society’s (RHS) Bloom Federation. For information about how to take part, please visit www.keepscotlandbeautiful.org/IYN or call 01786 477 171.
Aberdeen City Centre Community Council
Establishing
The group aims to turn a very grey and unfriendly looking play park into an inter-generational city centre space for everyone throughout the whole city, to inspire creativity, health and wellbeing. By adding green space, new play equipment and an energy producing gym, the group is hoping to create a holistic, interactive experience.

Brighter Bucksburn Group
Thriving
The main aims of the group are to improve access and enhance the overall environment for the benefit of residents, by development and maintenance of flower beds, planters and baskets, as well as the long term development of a community park and improved pathways within a wooded area.

Community Hit Squad
Establishing
The group has a central aim to upgrade and revitalise the communal garden at Kingswood Court, a sheltered complex where tenants are unable to maintain the area due to health issues.

Cummings Park Community Flat
Thriving
A community flat which encourages local people to become involved with gardening and with keeping the community clean. The group works closely with Community Foods to sell affordable fresh fruit and vegetables to local people each week.

DA (Drugs Action) Recovery Garden Project
Developing
The group aims to develop part of Bon Accord Park as a Recovery Garden. This is a volunteer led project and will allow service users, volunteers and friends of DA to create a garden space to aid recovery and reduce social isolation and stigma.

Donside Community Association
Thriving
Representatives of the village have taken on site improvements, and the organisation of events and activities are designed to bring the community together as it grows and new people settle into the area. The group strives to retain the beauty of the surroundings whilst also maintaining a successful housing scheme.

Friends of Duthie Park
Outstanding
The group has worked closely with the council to achieve the restoration of the park, and has raised sponsorship for various projects and activities including tree planting, park rangers, open days, a Japanese Garden, a Tropical Project, school workshops, and disability beds for the Community Garden.

Friends of Hazlehead
Outstanding
The group has raised over £90,000 by holding various events including fund raising dinners, with the aim of improving the local area structurally and horticulturally. It is the first Climate Change Park in Scotland.

Friends of Old Cove
Developing
A group which wishes to preserve the local heritage of the old fishing village. The main area of focus is around an electricity sub-station and the communal area close to it, as well as preserving the village’s heritage status with the city council.

Friends of Seaton Park
Thriving
The group was founded to help ensure the park is available for use by everyone for many years to come. With a large programme of events including Cakefest, Barkathon, and with monthly litter picks, the Friends of Seaton Park is embedded in its local community.

Friends of Union Terrace Gardens
Outstanding
The Friends of Union Terrace Gardens is engaged in various projects within the city centre’s green space. With over 1,000 members, and by working with businesses and the community, this group illustrates engagement at every level.

Friends of Victoria & Westburn Park
Developing
With a group of enthusiastic volunteers meeting weekly for weeding, tying and planting, and with local school children having built bird boxes throughout the two parks, this group has established improvements and community engagement in its local area.

Friends of Walker Dam
Improving
The group intends to enhance the dam as a wildlife site for the public. Its initial intention is to clean paths and burns, and provide information signs relating to the dam. In the long term, in co-operation with the council, the group would like to provide seating, wheelchair access, and wildlife enhancing plants to the area.

Gallowgate Residents Association
Improving
With partnerships between the group, community service and the council, a bare area has been filled with shrubs for all year round colour, creating a welcoming, open and accessible space. The group has also brightened up the area with planters in front of shops, helping to improve the appearance of the area for residents, locals and passers-by.

Garthdee Field Allotments Association
Outstanding
This enthusiastic group is developing the area in partnership with the council, Robert Gordon University and Kaimhill Primary School, and projects include a community orchard, micro-plots and an eco-toilet.
Gerrard Street Baptist Church
Developing
Volunteers from the local church work alongside residents to brighten up the area by cleaning and painting benches, planting up troughs, and maximising the potential of any green spaces. The church hosts a number of community events throughout the year such as the Street Party, Christmas tree light switch on, and BBQs over the summer.

Granitehill House Tenants Association
Improving
The group has been running for four years in this sheltered accommodation, with tenants looking after the local green spaces.

Hanover Street School
Improving
A city centre primary school looking to improve relations with the local community by raising awareness and developing its surroundings.

Hazlehead Academy
Improving
The school works in close partnership with a number of groups to address issues of littering in the local community. The school set up a community group with representatives from the Eco Group, Hazlehead Primary, businesses, community councillors, rangers, and local residents, and is clearly dedicated to both the environment and the local community.

Hazlehead Primary
Thriving
The group was set up to look for ways to brighten up its school and the surrounding area, along with the local park and wider community. All 270 pupils are included in the initiative and they are broken down into five groups: Community, Eco, Pupil Council, Health and Global.

Old Torry Community Centre
Improving
A volunteer run community centre that develops and supports activities in the community. The group is promoting the re-opening of the Torry Outdoor Sports Centre, which includes developing the environment of the sports centre and the surrounding area.

Skene Square School
Establishing
Enthusiastic pupils from Primary 4/5 have worked together to bring some wildlife, greenery and colour to their school, which not only benefits the pupils but also passers-by.

Slopefield Allotment Association
Outstanding
This group has developed a great community spirit and works on different projects at its monthly community days. Ongoing projects include continuing to improve its community and school plots, encouraging wildlife by planting verges with wildflowers, and creating hedges of native fruit trees.

Tillydrone Community Flat
Establishing
With the assistance of Aberdeen Greenspace, the group is creating a community space with the provision of raised beds for crops and edibles, with wheelchair access.

Aberdeenshire

Inverurie Environmental Improvement Group
Thriving
The group works in partnership with others to improve the horticultural displays in and around Inverurie. This year there were 160 hanging baskets and six tower planters, making a colourful impact in the centre of Inverurie.

Kincardine O’Neil In Bloom
Outstanding
The group consults with residents, the council and the local estate to create a program of improvements for the village. These include working with the community, keeping the village tidy and planting floral tubs around the village.
Angus

Healthy Happy Community Allotment
Thriving
The allotment is run by the NHS and is a place for local people to meet, and to learn how to grow vegetables to take home and make healthy meals. There are a variety of different age groups who attend the allotment throughout the year.

Friends of Seven Acre Park
Thriving
The group directs its time and energy freely across a range of projects such as fundraising, litter picks, wildflower bed planting, fence construction, painting and installing bird boxes, as well as contributing to the management of the park. This year it is helping to establish a signposted woodland walk with the rangers for the enjoyment of the local community.

Friends of St Katharine’s Park
Thriving
The group has cleared areas of vegetation, upgraded a walkway through the wood and improved access for pedestrians and dog walkers. It is currently carrying out further work on existing development relating to tree planting, orchard maintenance and pathway upgrades.

Inverleith Allotments
Outstanding
The group has an active committee which tries to ensure that all the plots are well used by the community, and benefit plot holders now and into the future, as well as enhancing the biodiversity of the area.

Argyll & Bute

Innellan Wildlife Watch Group
Thriving
The group is continuing to develop an area of waste ground in order to attract as wide a variety of wildlife as possible. Members of the community help children with growing seeds and planting, and the children get involved in environmental art, making it a fun and productive space.

Friends of Seven Acre Park
Thriving
The group directs its time and energy freely across a range of projects such as fundraising, litter picks, wildflower bed planting, fence construction, painting and installing bird boxes, as well as contributing to the management of the park. This year it is helping to establish a signposted woodland walk with the rangers for the enjoyment of the local community.

Friends of St Katharine’s Park
Thriving
The group has cleared areas of vegetation, upgraded a walkway through the wood and improved access for pedestrians and dog walkers. It is currently carrying out further work on existing development relating to tree planting, orchard maintenance and pathway upgrades.

City of Edinburgh

Bamboobelly
Developing
Bamboobelly is a unique and innovative project close to Edinburgh’s Quartermile. On a site of less than 200 square metres a garden area has been created from where music and informal entertainment takes place.

Friends of Pilrig Park
Thriving
A community group which aims to promote and improve Pilrig Park by working with the local community, businesses, City of Edinburgh Council and other partners. The ‘Friends’ have made positive changes that benefit the park, the local environment and the nearby communities, making Pilrig Park a green space for all to enjoy.

Inverleith Allotments
Outstanding
The group has an active committee which tries to ensure that all the plots are well used by the community, and benefit plot holders now and into the future, as well as enhancing the biodiversity of the area.

Dumfries & Galloway

Auchencairn Link Park Team
Outstanding
This new community garden has been established in the centre of the village, by the village, for the village. Over the last year the group has built a permaculture garden, ran a dyeing workshop for youths, engaged the primary school and nursery with making a bug hotel and planting, hosted events, and has erected a bespoke shelter made by local crafts people.

Incredible Edible Dumfries
Thriving
This small group has taken on growing edibles - fruit bushes, herbs and some vegetables - in various public spaces around the town of Dumfries. The produce is available for all to share.

Lochend Community Growing Project
Outstanding
The group runs workshops for biodiversity, gardening, herbalism, arts and crafts and socials, all open to people in the area. It has also taken on projects outside the garden to enhance and heighten awareness of growing your own fruit and veg.

Friends of Seven Acre Park
Thriving
The group directs its time and energy freely across a range of projects such as fundraising, litter picks, wildflower bed planting, fence construction, painting and installing bird boxes, as well as contributing to the management of the park. This year it is helping to establish a signposted woodland walk with the rangers for the enjoyment of the local community.

Friends of St Katharine’s Park
Thriving
The group has cleared areas of vegetation, upgraded a walkway through the wood and improved access for pedestrians and dog walkers. It is currently carrying out further work on existing development relating to tree planting, orchard maintenance and pathway upgrades.

GRASS (Grassmarket Residents Association)
Developing
The members aim to restore this narrow, steep garden, and use it to grow their own vegetables and flowers, and to provide the local area and population with a green space again.
Ardler Environment Group
Thriving
Ardler Environment Group looks after the community gardens at the Ardler Complex, along with the help of two local primary schools. The group spans all ages, and showcases plants, edibles and art in the gardens.

Bonnie Dundee Group - Container Garden Project
Thriving
Bonnie Dundee is a group of volunteers which maintains container gardens in Union Street and the local area including the local Science Centre. It is involved in litterpicks with schools and Dundee University, as well as local supermarkets and gardens. It has also planted an urban orchard.

Castlehill Gardeners
Thriving
The project is situated on a corner site in Dundee city centre and the groups’ aim is to ‘bring a touch of the countryside to the people of the city’. The members grow wild flowers to attract bees and butterflies, and have put up feeders, nesting boxes and water for birds.

Dundee Miley Group
Thriving
The Miley is an old railway line which has been converted into a wildlife site. The group keeps it clean and accessible, and uses the space to facilitate wildlife studies for local school children.

Friends of the Barnhill Rock Garden
Outstanding
The group works closely with the Environment Department of Dundee City Council to support and promote the development of the Rock Garden. The group holds social events, including talks and tours and, with weekly work sessions, keeps the garden at a very high standard.

The Attic Community Garden
Thriving
The group has turned a derelict area into a space which accommodates family fun days, barbeques and a floral and vegetable garden.

The MAXwell Centre - Every1’s Garden
Thriving
A derelict space has been transformed into a productive and attractive community garden, supported and used by local groups including primary schools and churches.

East Ayrshire

New Cumnock Community Action Plan Steering Group
Establishing
This group has come together to carry out a five year project to improve the village and to enhance the local environment.

East Lothian

Glebe Greenspace Community Project
Improving
In its early stages, this group is transforming a two acre field into a place for wildlife, a space for vegetables and a wildflower meadow, and is encouraging its use as an attractive and functional green space.

Wingate TRA
Developing
The group evolved from a neighbourhood watch scheme, and now features social events, fruit trees and plant tubs that decorate and bring together the community.
Falkirk

Communities Along the Carron Association (CATCA) Outstanding
A group of local volunteers committed to the regeneration of the River Carron. CATCA optimises the mutual benefit of working in formal and informal partnerships with councils, agencies, other groups, stakeholders and funders towards improving water quality, cleaning up, education, biodiversity and social development.

Community Green Initiative Thriving
The group’s main long-term project is the development of Herbertshire Castle Park in partnership with the local council and other groups. The group has established a Green Dog Walker project, regularly conducts litter picks, and is gradually introducing wildflowers.

Friends of the Earth Falkirk Outstanding
The group has developed, and looks after four small community gardens in the town centre: a wildlife garden, a community food garden, a herb garden, and a woodland garden.

Lower Braes Woodland Group Developing
A community organisation which works together to develop a space for people to discover and explore nature and wildlife in the local area. Community planting, path maintenance, litter picks and painting railings and bridges all feature.

Maddiston Community Council Developing
The group arranges regular litter picks and works with local volunteers to target the development of orphan land to improve the aesthetic of the local area. In addition, the group maintains the local war memorial and it works in partnership with the local country park to create a community growing area and a community orchard.

Fife

Blooming Dairsie Thriving
A group bringing flowers to the village, with the help of young and old. The group is planting a small orchard, encouraging the younger residents to learn about growing native fruit.

CLEAR Buckhaven Outstanding
The Community-Led Environmental Action for Regeneration Buckhaven group hopes to improve the local environment, carrying out community planting, litter picking and arts projects, to make Buckhaven brighter and more sustainable.

East March Street Allotments and Community Gardens Kirkcaldy Developing
This group is developing previous council owned waste land into allotments and community gardens.

East Wemyss & McDuff Community Council Outstanding
The group is landscaping an area of derelict ground at the foot of West Brae in East Wemyss.

Express Group Gardening Club St Andrews Outstanding
Aided by ‘St Andrews in Bloom’, the group has set up a therapeutic gardening project where members can take an active role in planting, tending their own vegetable plot, and enjoy exercise and social interaction.

Halbeath Residents & Tenants Association Developing
With growing support from the community, this group has installed tubs and boxes around the village and towards the railway line.

Hayfield Community Centre Growers Thriving
A small community centre in Kirkcaldy which encourages community participation and involvement in the edible garden. With connections at the council and local schools, and by sharing skills and offering cookery lessons and demonstrations, the group is reconnecting people with their environment.

Hillside School Outstanding
The school has built an outside class in its walled garden. It shares a polytunnel with Aberdour in Bloom and has worked with the group, planting up pots for display in the village. The school has worked with the Sustainable Communities Initiative and has designed and created a labyrinth at the Earthship site at Kinghorn Loch.

Inverflora Outstanding
A local ‘grow and plant’ group which is enhancing the local environment, encouraging recycling and biodiversity and building community spirit.
Invertiel Area Tenants & Residents Association
Thriving
With strong links with the local council and involvement in a number of projects, the group is dedicated to improving the lives and involvement of the local community.

Kinghorn Harbour Residents and Environmental Group
Thriving
The group provides flowers, plants and shrubs around the harbour, using recycled boats as planters. In recent years it has planted native trees, and regularly holds beach cleans and beach surveys.

Kirkcaldy Old Kirk Trust
Thriving
A group of volunteers which maintains the historic building and flowerbeds in the surrounding ancient graveyard for the community, creating a welcoming and pleasant space for people to enjoy.

Ladybank Development Trust
Thriving
A community led charity group, working to improve the environment and green spaces around it, whilst preserving the important history of the village.

Links Road Leven Neighbourhood Watch
Thriving
The group formed to address concerns that some areas were becoming run down. With 70% of residents contributing towards the cost of flowers and upkeep, and through offering annual subscriptions, the group will be able to carry out its work far into the future.

Muchty in Bloom
Thriving
The group’s objectives include the enhancement of the area, engaging with the community and working with partner organisations to improve biodiversity and enhance the skillset of those involved.

Ravenscraig Walled Garden
Outstanding
The group’s work involves restoring and transforming a previously managed Fife Council nursery into a 21st century walled garden.

Torbain Primary School
Thriving
The school children and helpers are working towards creating a greener, more welcoming, environmentally sustainable and bio diverse space through regular litter picks, a recycled plastic bottle greenhouse, creating bug houses, a wildflower meadow, and planting an assortment of vegetables and herbs.

Urquhart & Berrylaw Tenants & Residents Community Garden
Thriving
The group members have created colourful displays of seasonal and sustainable planting around their homes.

Friends of Pacitti Community Garden
Thriving
A transformation of a strip of waste ground to a beautiful space, much loved by its carers and users - a tremendous achievement by an enthusiastic and dedicated group.

Friends of Rosshall Park & Gardens
Thriving
Working in the park with local children and volunteers, the group has adopted flower beds and is developing walks and a Heritage Trail booklet.

G3 Growers
Thriving
The Back Garden run by G3 Growers is situated in a busy urban street amongst a group of tenements. The site has two greenhouses, five raised beds, a mini orchard, bee and butterfly attracting plants, and a composting area. G3 members communally grow produce which they share when harvested.

Garrowhill Garden Estate Community Group
Thriving
A group of six has adopted and maintains several gardens in the area. The group has been awarded runner up in the Best British Garden competition for its efforts.
Gateway Residents Association  
**Outstanding**  
The group continues to maintain the lane and gardens, has recently restored a monument and has advised other local groups how to set up similar initiatives.

Gorbals Healthy Living Network  
**Thriving**  
The project seeks to enhance local awareness of climate change through workshops covering issues such as food growing, horticulture, environmental education and recycling.

Heart of Scotstoun Community Gardeners  
**Thriving**  
The group has created beautiful and colourful surroundings for the community centre, including a sensory and herb garden, which doubles up as a pollinator friendly spot, healthy shrubbery, a wonderful sweet pea screen around the children’s crèche garden, and fruit trees.

Holmlea Allotment Association  
**Outstanding**  
A group offering plots for local residents and community raised gardening beds for the local primary school.

Kelvindale Playpark  
**Developing**  
A community group refurbishing a local play park by installing new equipment including swings and a zip wire, and planting for wildlife and biodiversity.

Kingsway Court Community Garden  
**Thriving**  
A community garden promoting local pride by planting across 30 beds, developing wildlife areas, and running workshops focusing on developing the skills of the local community.

Seven Lochs Project  
**Developing**  
The project works with volunteers and community groups to create a new wetland, and Scotland’s largest, urban park and green network across the north east of Glasgow.

South Seeds Croft  
**Thriving**  
A former tennis court, turned brownfield site, the croft was overgrown wasteland with evidence of anti-social behaviour before being converted into a community garden. The site is now a thriving learning environment and social space.

South Seeds, Allison Street Community Garden  
**Thriving**  
Young people from a school in Govanhill are transforming an unused space into a thriving green space. They have chosen what food to grow and are developing gardening skills, learning about environmental issues, and partaking in a range of activities promoting biodiversity such as the creation of bug hotels and bird feeders.

Transitions City of Glasgow College  
**Developing**  
The Transitions course is for young people with Asperger syndrome, using gardening on the course as a means to build team working skills, and has maintained a garden space in the Gorbals for eight years.

Urban Roots  
**Outstanding**  
The group is committed to working with local people on projects that improve the environment and health of the area, through a range of activities including community gardening, conservation and biodiversity, and planet friendly living.

Highland  

4th Isle of Skye Guides  
**Establishing**  
The group is working on replanting the village community hall garden.

DiGGers  
**Developing**  
A group from Dingwall Academy which participates in, and manages a range of horticultural activities for the school and the community.

Raasay Walled Garden Action Group  
**Developing**  
The group has been managing the garden for over a year, primarily focusing on preparing the land for future use, and has been able to include the local primary school throughout this process.

Watten Community Council  
**Thriving**  
The group is currently developing a nature trail in a previously neglected area of woodland, planting native trees and flowers with the help of volunteers and other groups.
Inverclyde

Colourful Kilmacolm
Developing
The group plants attractive flowers and carries out plant and greenspace maintenance, bringing colour and vibrance to the village.

Wellington Allotment Gardens Association
Outstanding
Consisting of 34 plots, with a range from young to elderly involved, the passionate group is working to maintain the gardens, using recycled materials and engaging with the community.

North Ayrshire

Organic Growers of Fairlie
Outstanding
A sustainable community garden growing a wide range of vegetables and fruits, and encouraging biodiversity at Fairlie Station.

Friends of Cumbernauld House Park
Thriving
As North Lanarkshire’s largest town park, the group has worked to enhance the greenspace with: community planting events, accessibility improvements, a new wildflower area, and a new footpath.

Midlothian

Midlothian Growing Together
Thriving
A volunteering opportunity for young people with learning difficulties or mental ill health, supported through opportunities at a community garden, park and allotment site.

North Lanarkshire

Craigneuk Allotment Association
Outstanding
The flourishing allotments are situated in the middle of a council housing estate, and are an excellent resource for members and the wider community, including fruit, vegetable, herbs and chickens.

Getting Better Together Ltd
Thriving
As a health improvement organisation, the group addresses the health and social needs of the local community, including a transport community food co-op and a community garden used by local schools and nurseries.

Moray

Coltfield Neighbourhood Watch
Improving
This group maintains and improves the local environment by mowing verges, constructing community flower troughs, holding clean ups and encouraging more responsible behaviour.

Strategic Partnership for Improving the City of Elgin – SPICE
Thriving
A partnership approach to improve the environmental appearance of the City of Elgin, by working with schools, businesses and community groups to tidy, clear and maintain the area.

Cumbernauld Community Memorial Peace Garden
Thriving
The project has seen the site turned into a thriving community garden commemorating all those from the Cumbernauld area who lost their lives in service.

Friends of Centenary & West End Parks
Outstanding
The group is comprised of dedicated individuals who work closely with the council and community to ensure the parks are maintained to an excellent standard and provide a valuable resource for the whole community.

Glenboig Neighbourhood House
Outstanding
A community organisation which provides environmental services to older people through a gardening and winter emergency service, as well as having a community garden which hosts community events.

Greenhead Moss Community Group
Outstanding
Looking after a 100 hectare greenspace site, the group works with the local council to manage the meadow, restore the peatlands, and provide a space for local schools to visit and learn about its work.
Hope Community Garden Project
Thriving
The group promotes healthy eating by growing fruit and vegetables at the community garden, and encourages biodiversity. By offering workshops and hosting events such as talent shows, the group is engaging widely with the community.

Pride in Carbrain
Thriving
The group is involved in a number of small environmental improvements within the community and also at the two local railway stations, working with local schools and businesses, and is taking part in a project to green routes in Cumbernauld.

Stane Primary School
Outstanding
The school aims to develop and improve the playground space to create a natural learning environment for children to explore and learn about environmental sustainability.

Watch Us Grow
Thriving
Working with adults requiring support and recovering from mental health issues, the organic garden enables volunteers and participants to build gardening and employability skills, as well as confidence and self-esteem.

Perth and Kinross

Atholl Centre
Developing
The Centre is an inclusive social enterprise that plants to create a sensory and community garden on the land, and engages with the local community by encouraging them to harvest the produce.

Perth Academy Outdoor Learning Resource
Thriving
This project utilises underused green space around the school grounds, and the gardens are being used as a teaching aid, with growing diversity in the plots.

PLUS Perth
Developing
Acting as a catalyst organisation, PLUS Perth projects assist those with mental health problems. It was instrumental in getting a new community garden up and running, and has instigated guerrilla gardening projects.

Renfrewshire

Garden of Dreams
Thriving
The project is a combination of plots and raised beds which are available to residents in Renfrew. The group is bringing together a wide mix of people, of all abilities and backgrounds, through the enjoyment of gardening, and is creating links to provide benefits to the wider community.

Grow in Glenburn
Thriving
A community garden based in Paisley within the former kitchen garden of a now demolished mansion house. There are over 30 participants who cultivate their own plots, and work on communal areas and maintenance tasks.

Scottish Borders

Allanton Enhancement Group
Improving
Pretty planters enhance the high street, making it inviting to visitors and residents. The group has now established a rapport with the local council and has discussed plans for the future.

Lauder in Bloom
Thriving
A new volunteer group with the aim of brightening up the town, engaging with businesses and local community groups to transform unloved areas and provide planters along the main street.

South Ayrshire

Girvan Community Garden
Outstanding
A hidden walled garden situated behind the newly refurbished town hall. The group hosts regular workshops and carries out projects within the garden and community.
**South Lanarkshire**

**Burnside in Bloom**
*Thriving*

Formed by the community council in response to a decline in local amenities. The group has already formed strong relationships with local businesses and the local authority, and has been making major improvements for, and instilling pride into, the community.

**Rosebank Initiative Community Association**
*Outstanding*

The group was set up to improve the environment through partnership working with community members, school children, the local council and local businesses. The group members are extremely passionate about the place in which they live, and strive to improve the look and facilities in the area for both the community and visitors to enjoy.

**The Back Green**
*Improving*

A therapeutic gardening project set up by the Occupational Therapy Team in the hospital grounds, enabling patients to enjoy physical activity outdoors, learn new gardening skills and reduce isolation.

**West Dunbartonshire**

**Dalmuir Park Restoration Project**
*Outstanding*

Volunteers have transformed a previously disused greenspace area within the park to a community garden for volunteers, schools, nurseries and other organisations to enjoy.

**Faifley Community Garden and Allotments**
*Thriving*

The garden consists of a sensory garden, allotment plots and raised bed growing areas with a balance of cultivated land and wild areas, creating an attractive and calming environment to enjoy.

**Lomond Community Gardens and Allotments**
*Thriving*

The group has successfully transformed a disused area of lawn into an attractive allotment site for the benefit of the local community, bringing people together, sharing gardening skills, knowledge and crops with the wider community.

**West Lothian**

**Murieston Environmental Group**
*Outstanding*

A group aiming to improve the benefit of outdoor spaces for the residents of Livingston and beyond, and improving opportunities to use the facilities for educational purposes.

**Stoneyburn & Bents Future Vision Group**
*Thriving*

With clear motivation to improve the living environment of the whole community, the group actively involves all ages in the improvement of the village. From a community orchard to ensuring footpaths are reinstated, the group is clearly focused on the future.

**Stirling**

**Greener Cambusbarron**
*Outstanding*

Through community engagement and working with partner agencies and local businesses, the group has managed to increase community spirit and improve the look of the village through planting and hosting events.
Keep Scotland Beautiful is the charity that campaigns, acts and educates on a range of local, national and global environmental issues to change behaviour and improve the quality of people’s lives and the places they care for. We are committed to making Scotland clean, green and more sustainable.
