

Climate Action Week 2024: Nature Scavenger Hunt

Stage: **P4-S2**

Time: **1 hour**

Introduction: Following Wednesday's Climate Action Week Live Lesson on designing sustainable homes, we would like pupils to go on a scavenger hunt to find design inspiration from nature.

Activity

The table on page 2 lists different objects from nature that can be used as inspiration for design. Ask pupils to go outside and complete the table with what they can find in the school grounds. It should be possible to complete the table even if your grounds are fully tarmacked. Ask pupils to look outside the grounds at trees and clouds, or look closely for moss / lichens etc.

Follow on

After this activity, pupils can move onto our overall week resource: 'Design your sustainable home' and complete design task 3.

Nature Scavenger Hunt Template

Go outside look for the items listed in the table. These can be used as inspiration for designing a sustainable home:

Item to search for	What I found
Four colours from nature	
A natural pattern	
A natural texture	
A smell from nature	
Something related to water	
Something you find beautiful	
Something that makes you feel relaxed	
Something that makes you smile
