SCN 1-02a, 2-02a

Food Chains – for ages 3-9

[Food Chains](#) is a simple activity from Keep Wales Tidy to help young children understand food webs. Make sure to print out the food chain cards from the resource ahead of when you plan to do the activity. Ideally this activity would take place outside, but can be completed inside if needed.

Web of Life – for ages 9+

[Web of Life](#) is an activity for older pupils, where they will create a food web based on local animals and plants. Then they will consider the impacts of biodiversity loss on these food webs, and what we can do to protect and enhance biodiversity.
